I agree with inviting CDM and HRD.

Also, I'm not familiar with the comments Jay is citing in his email. Are those from the RI? Can you please send them to me?

This is what NJDEP wants to discuss, so I will send out an invite including CDM and HDR.

Subject: RM 17 CPG's IRM/CSTAG Presentation

Diane,

As I provided earlier, appears March 29th is best for NJDEP personnel (Edison is an acceptable location) to meet to discuss CPG's RM 17 IRM and, if anything, what is happening on the proposal pending the CSTAG response to presentation.

Summary of potential discussion items include the following:

- Status of Interim Proposal pending CSTAG response
- EPA comments to CSTAG
- EPA's response (preliminary or final) to NJDEP's technical comments and EPA's potential path to address NJDEP's technical comments before approval of the current proposed IRM.
Of greatest interest are General Comment #4 and NJDEP Technical Comments # 1-7; may also include NJDEP IR concerns relative to USEPA Contaminated Sediment Guidance, recommendations 5 – 8.

- Project status; i.e., current RI/FS based on preliminary review (Sections 1 – 5) of 2nd revised draft RI
